

Italy - Milan

Armani Store

Work description

ARTELIA provided the Client with Project and Construction Management and Engineering services including: feasibility studies, detailed design, permitting, site management, safety management and due diligence. The assignment involved 4 Flagship Armani Brand Boutiques (one in Brussels, three in Rome).

ARTELIA's team in Milan is working closely with the Armani team to ensure efficient coordination of all disciplines and on-time completion in accordance with the highest ARMANI quality requirements.
