## Savoy Hotel

### Work description

Rocco Forte Hotels is a group of luxury hotels and resorts. It was established in 1996 by Sir Rocco Forte and his sister, Olga Polizzi, to create a group of luxury hotels in locations around the world.

The group intends to start the renovation of the Hotel Savoy in Florence. The building features 102 rooms distributed on 5 floors, ground floor and underground technical rooms and back of house.

The refurbishment works will include a full renovation of 66 guestrooms which will be entirely refurbished and partially merged into larger suites; a soft renovation of Reception, Lobby and Bar at ground floor, Back of House and technical rooms and equipment at all floors and a new multifunctional room and Gym area at basement floor.

The project shall be carried out on a fast-track schedule to mitigate the loss of business during the renovation works, that will require the complete shut-down of the Hotel.
